## What is this product?

**Type** Ordinary shares in Warehouse REIT PLC, which is a real estate investment trust. See line 10 for further information.

### Objectives

**Product objectives** The product seeks to invest in a diversified portfolio of UK commercial property warehouse assets. The investments will include well-located freehold and long leasehold warehouse assets in the industrial/manufacturing, storage and distribution, trade-counter and retail warehouse sub-sectors.

**Investment approach** Warehouse REIT PLC invests in and manages urban and 'last-mile' industrial warehouse assets across the UK. See line 41 for a description of the approach to asset management

**Investment policy** Please refer to the Company's investment policy in the latest published prospectus.

**Benchmark** A level of discretion in the choice of investments is permitted provided the investment falls within the investment policy. Investments are assessed by Tilstone Partners Limited taking account of a number of factors including:

- the suitability of the asset for both existing and future occupiers and therefore its ability to deliver a sustainable income with the potential for growth;
- the location of the potential assets, especially relative to transport infrastructure and the adjacent population;
- the size, configuration and design of buildings to ensure they are and will continue to be "fit for purpose" such that the assets are well placed to avoid potential future obsolescence;
- the quality, diversity and level of the existing income;
- prevailing levels of supply and demand of competing buildings within the local market;
- the site density and the potential to add further rentable space;
- potential flexibility to change the permitted use of the asset to either facilitate an increase in rents and/or widen the opportunities for

accretive asset management;

- the probability of achieving planning for any land with development potential; and
- the ability of the asset to perform in line or ahead of the Company's ESG strategy across a range of criteria such as including the targeting of green building credentials, reducing EPC risk, increasing energy efficiency and incorporating responsible business practices across its stakeholders and tenants.

**Redemption policy** Shares cannot be redeemed on demand

**Distribution policy** Distributed

**Asset segregation** Assets and liabilities are not segregated

**Sustainability policy** Sustainability is one of the factors considered when an investment opportunity is under consideration. Sustainability is also one of the key considerations when a real estate asset is refurbished or redeveloped.

**SFDR Article 6**

**Intended retail investor** An investment in the Company is compatible with an end target market of retail investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom

**Term** There is no maturity date and no right to terminate. See line 10 for further information.

#### What happens if G10 Capital Limited (as AIFM to Warehouse REIT plc) is unable to pay out?

The Company's shares are listed on premium segment of the main market of the London Stock Exchange. Should the Company be liquidated, the amount you receive for your holding will be based on the value of assets available for distribution after all other liabilities have been paid. Shareholders in this Company do not have the right to make a claim to the Financial Services Compensation Scheme in the event that the Company is unable to pay out.

#### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10 000 is invested.

Investment GBP 10 000 Scenarios	If you exit after 1 Year	If you exit after 5 years
<b>Total Costs</b>	120 GBP	600 GBP
<b>Annual Cost impact (*)</b>	1.20%	1.20% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.74% before costs and 5.54% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

G10 to prepare in their capacity as AIFM

We do not charge an exit fee for this product, but the person selling you the product may do so.

#### Composition of costs
